1

Tasks

Habits & Reminders

“

Stay on top of every to-do with smart reminders and streak tracking.
Build daily habits and watch your consistency grow day after day.

1 **Build daily habits with streak tracking**

2 Smart date/time reminders with alarm mode

3 Custom category icons & accent colours

4 Filter: Today · Upcoming · All tasks

5 Swipe-to-delete with confirmation

6 Six views for full task control

Finance

Debt Tracker

“

Know exactly who owes whom. Track borrowed and lent money, log partial payments, and see your net financial position at a glance.

1 **Track who owes whom in both directions**

2 Net-position card (green positive / red negative)

3 Log partial payments with timestamps

4 Swipe to settle or delete a debt

5 Currency symbol from your profile

6 Full history per contact

Events

Budget Checklists

“

Plan every occasion with a budget and a checklist. Countdown timers keep you aware of how many days remain until the big day.

- 1 **Countdown timer to event date**
- 2 Per-event budget with item checklist
- 3 Mark items bought — totals update live
- 4 Colour-coded by proximity (soon / far)
- 5 Attach notes to each event
- 6 Archive past events automatically

Gym

Weekly Planner

“

Design your weekly training split and log body weight over time. The built-in chart shows your progress at a glance.

1 7-day workout planner with rest days

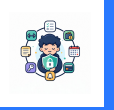

2 Add exercises with sets, reps & weight

3 Body-weight log with line chart

4 Reorder exercises via drag handles

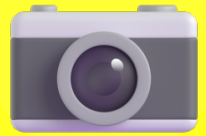

5 Duplicate day plan to another day

6 Compact card view for quick scanning

Snapshots

Private Photo Journal

“

Keep a personal photo diary organised by category. All images stay on your device — no cloud, no sharing, no exposure.

1 Pick photos from gallery or camera

2 Organize into named categories

3 Gradient tint per category

4 Full-screen viewer with swipe

5 Delete with confirmation

6 Zero network access — fully local

Notes

Quick Text Notes

“

Jot down anything in seconds. Free-form text notes with search, so your thoughts are always one tap away.

1

Free-form rich text notes

2

Instant search across all notes

3

Pin important notes to the top

4

Colour labels for quick grouping

5

Swipe to archive or delete

6

Word & character count in editor

Links

Saved URLs

“

Save any URL for later and open it with one tap. Never lose a useful link again.

1 **Save URLs with title & description**

2 One-tap launch in system browser

3 Search saved links by title

4 Category tags for organisation

5 Share links from any other app

6 Swipe to delete with undo

Vault

Password Manager

“

Store passwords, PINs, and secrets locally. The vault is protected by your device lock — nothing ever leaves your phone.

1 Store passwords, PINs & secrets

2 One-tap copy to clipboard

3 Search by site or username

4 Masked display — tap to reveal

5 Protected by device lock screen

6 All data stored in local sandbox

Profile

Your Preferences

“

Personalise the app with your name, currency, and accent colour.
Everything adapts to your taste instantly.

1 Set display name & avatar

2 Choose currency symbol

3 10 preset accent colours

4 Dark / light appearance toggle

5 Export & import full backup

6 Sync timestamp (future cloud sync)

Expenses

Daily Spending

“

Track every rupee you spend by category. The monthly summary helps you see where your money actually goes.

1 Log expenses by category & date

2 Monthly and daily summaries

3 Category breakdown bar chart

4 Custom categories with colours

5 Filter by date range

6 Export to CSV for spreadsheets
